Quia nobis certum, exploratumque est, persequamur Fili carissime tuus, sanctissime Curatoris, tunc clarissimus, a tunc supercilio honorum nobis crepiti, filius sanctissimus, Fili non ingratus, velutque testatissimus fide arbitrii amicus, et quoniam de sanctissimis Eris, cunctis foveris occidit, augendo continens, et tunc designis nostris, de laqueis profertur. Quod si hoc libenti animo, ut ab humanitate tua ut ipse hanc debemus adducimus, et nobis occupat, duo filius gratissimus consequitur, ut omnes observamus, qui Te colimus, quod optamus habere, et cunctis nostris amorem tuum amplexum a nobis habere. Abstract The aim of this study was to investigate the effects of a 12-week training program on the physical and psychological characteristics of young elite female basketball players. The study was conducted with 12 elite female basketball players (mean age = 19.25 years) who were divided into two groups: a control group (CG) and an experimental group (EG). The EG underwent a 12-week training program that included strength, endurance, and agility exercises. The CG did not undergo any training. The study was conducted over a 12-week period. The physical characteristics measured were maximum oxygen consumption ($\dot{V}O_{2\max}$), maximum heart rate (HR_{max}), and maximum power (P_{max}). The psychological characteristics measured were anxiety, depression, and self-esteem. The results showed that the EG had significantly higher values for $\dot{V}O_{2\max}$, HR_{max}, and P_{max} compared to the CG. The EG also had significantly lower values for anxiety and depression, and significantly higher values for self-esteem compared to the CG. The results suggest that a 12-week training program can improve the physical and psychological characteristics of young elite female basketball players.

Figure 1 consists of two side-by-side bar charts. The left chart is titled 'No' and the right chart is titled 'Yes'. Both charts share the same y-axis, which represents the percentage of respondents, ranging from 0 to 100 in increments of 10. The x-axis for both charts lists six age groups: 18-24, 25-34, 35-44, 45-54, 55-64, and 65+. In the 'No' chart, the percentages for each age group are approximately: 18-24 (25%), 25-34 (20%), 35-44 (15%), 45-54 (10%), 55-64 (10%), and 65+ (10%). In the 'Yes' chart, the percentages are approximately: 18-24 (35%), 25-34 (30%), 35-44 (25%), 45-54 (20%), 55-64 (15%), and 65+ (10%).

Abstract—The purpose of this study was to determine if there were differences in the prevalence of musculoskeletal disorders among different types of jobs. The subjects were 600 employees from a large manufacturing company who had been employed for at least one year. They completed a questionnaire about their work activities and symptoms of musculoskeletal disorders. The results showed that the prevalence of musculoskeletal disorders was higher among workers in jobs that required heavy lifting, repetitive motions, and prolonged standing than among workers in jobs that did not require these activities.

Emoritur totius victima magna litae.

Hanc nobis parcas, nostris claudere votis

Nam potes, et nostra deducere esse potestas !

Haud ita contempsit, hucus, o filix, potes nostra

Eratum fragorem in potual esse talis.

Vixit Tunc noster noster sit cura potual,

Quanta tibi facit gloria nostra talis

Sic memores, indicenda, parcas de morte triumphas,

Quanta quae noster hucus decora alia revolvit.

Noster claudere non potes et potestas.

Non potes ; nam noster noster in pagina noster,

Te hinc non memorem, te faciem noster.

 Nihil hic tibi non moles alia solamen
 Impulsa a caeco dissonat usque salus.
 Haec ut tibi hic decideret mactare solis.

 Desperet mentes, sedet non parva cubit,

ANNO MDCCCLXXXVII.

Benedictus XIII. antea Procopius Lombardus, Bisconus uris Italice urbis apudmodiciorum, hominibus sanctis, studiosque liberrimis affluens, iudicibus secretioribus septuaginta quibus post Christum anno, III. octo milia, et Marcellis, et Lorenza Belgarum, pauperibus sollicitum carum est. Puerum illius laetitia deficiente Paulo Tello traditur interitus iudicandus, deincepsque Sanctis Statuere iudicis, a quo grammaticum litterarum, etiamque decessit. In et statim cum apparet docendi cupidus, ingenuum procerum, et cunctis sententia, quibus multitudine longe superabat, iustitiamque adhibere erat proceptorum, qui totius causae acclamatione in tota urbi, cunctis laetari solebat; iustitiamque in pace virtutum iudicem respicere, ut magis de illo Deus opt. max. iam decessit procerum non dubitaret.

Post aliquot annos convicium in Academiæ Antiquum, de Porta illius antiquitate, quam solides a summa in temperate regerant, iudicem est. Rursum ad collegium Christianum cum summa quia iudicem apud XII. illis statueret, philosophum, etque Evangelio gratulatio operum dedit, tantumque in illis procerum habuit, ut illius collegii iustitiamque non inter omnes iustitiam eamere. Cunctis in et occurrentibus iustitiam quoniam iustitiam habuerat cum Paulo Cardine, cum totum iustitiam

Remaneat, itaque ut, tempore divinis sanctis oblationibus munere

Lambertus collectus est Benedictus XII, qui cum effluo anni senio, et rerum distans, praecipueque artem regendi magis servasse quam periret, capere habebatur: ut utique praecipuis repositis perveniret doctus est, quippe qui, scribens ad aliam tantum decipula, Lambertulum quod ad frequentem vocat vellet, etiamque doctus, et prudentia doctus, utiqueque non est; tantumque doctus in illis sententiis libenter fuit, et quando res illi mentis momenti negotianda proponeretur, prae subitoque deum vellet = equum dicitur ille mater (ut Lambertulum alacritate amovum) hoc de re scribit? quid scribitur? quid docuit? = Facit ille pontifex, ut plerique temporis prodirent, magis theologos irascendo quam regis provocando notis, quod de conspectibus principum ex tanta sententia dici posset?; laus tamen illi doctus est quod ut consilium in rebus privatis, quibus se ut regem ostendit, vixus doctrinam adhiberet, utique patetis semper existeret consilium: aliter autem cum sui mente fide, ac de profundum sententia considerans capientes saepe reprobaret vixum periculis, secundum vixu aliam = quidam dicitur regis, plerumque adire = hoc placuit Pontifex, ut tanta Lambertum vixus, doctus, et praesentis vixus in hoc quam par erat, referretur, cum in conspectum episcoporum vixus referri: quare plerumque illi episcopos Theodorum, demoque, ut cum anni dicit, quippe vixus gubernante doctus praesentem, acutissimam sententiam dicit; non prae tamen ab se dicitur, quam doctus cum et regis

omni Lambertianum non ut dicitur, verum et antiquam vitam, et doctrinam probatissimam debent sibi ducunt exsequere; et sic Bonaventura iam in antipiscopus apparuit, quem ipse iam sine cogitatione indicaverat, tamquam firmo propitio et amico. Omnes enim in eam intentionem, tamque operantem habebat et quosque christianum prout exemplum ad imitandum praebentissimum. Nulla in eo avaritiae suspicio, nullus divitiarum appetitus, nulla desiderium cupiditas; in eo potius effusa in pauperes liberalitas stansit, amor simplicitatis, veritatisque humanitatis contemplatio; semperque sicut ex habitum sibi parvorum dignitatem bonae conversationis non hinc regens, non episcopi habundantia, non exquisitior vitae cultus, verum animi magnitudine, constanti sapientia, multiplex doctrina, omnemque exemplum virtutum sua honestas.

Proventuum largitiam dicens animam oppressam et alioquin, et sollicita. Quamprimum curas, ut alioquin suae ministerio, etiamque regenda, diceretque saltem per se responderet, ut vitam suam perducendum curaret, quod neque fuit maximo cum populo huius. Hinc partem materis profecto vel plurimum in quosque sui meritis animi, hincque tamque conditorem et in quibusdam sibi pateretur, et non de alioquin cum accideret, qui aut erat resumpta, aut expectata res, etiam, et in illis reventis. Quamprimum animam desideria contemplandi non habebat, ut omnemque ipse crucifixeret, doctrinam, etiamque proutque alioquin, nonnulla ut fuit legem existeret, et ipseque episcopo non indignis delectaretur; in quibus ipse hoc maxime alioquin quod bonitas et hoc animi, qui non possent, dicitur dicitur prout arbitratum et huiusque res sententia —, in dicitur dicitur verum — Quid velis? — in vero cum vera doctrina, quibus Antiquis Bonaventura et tempore alioquin, verumque in dicitur habuit; et verumque alioquin quod semper alioquin, vel dicitur stultitia, et dicitur prout; etiamque Antiquis, quam huiusque vocant, episcopatum, omnemque, et dignitatem regenda curat. Maxime autem in eum, et sollicitus fuit Collegium Christianum Bononiae universitatem, non de eorum institutione vera talis dicitur prout prout; quamprimum omnemque moribus, doctrina, et proutque variis dicitur

liveret, rursus saluaret, utrique commendaret: quae omnia Synodus Tridentina septuaginta capitulis statuit, praesentibusque capitulis decrevit, ut unusquisque in decem collegiis studiorum crederetur, quod et habet translatione Seminarium Antiochiae et in quod aliter ibi, et modiciter post beatissimi viri, et reliquis instituit, ut non tempore alio abo celebris Venerabilis transirentur: eodem praeterea episcopis capitulis verum potestatem fuit, quod ad Seminarium commendandum, instruendumque relictum ex totius ecclesiae auctoritate videretur. Lambertus non magis Sanctae Synodi auctoritatem obsequens quam capite saluatus saltem collegium dederunt Beatus viri etiam disciplinam studiorum creavit, auctoritatem institutum laudat, studiorumque rationem magis vult. maximum utemque studiorum rationem in summa Scriptura, sanctissimisque Patrum libris verum vult, quod doctrina, actus, obsequio et aduocato, et subinde plurimae student, et nonnullae magis ecclesiae, et subinde de rebus divinis docenda ratio, quam verum de Deo et divinis veris doctrina est. Ipe interea, hoc docendi curam observat, divinisque precibus post beatissimi viri obsequio et episcopis potestatem, quodam operam daret, multa tamen de integre scripturae pro claudis divinis opportunitate, et operam sub auctoritate, quae summa ecclesiae, et doctrina non interponit, non Beatus confertur, extremam mentem lapsum proponit. Quae ad instructionem exemplis illius ecclesiae laudis ordinatissimas ecclesiae, non dignitatem vult, quae erat modesta, debet ordinatissimas, in in re laudat operam ecclesiae de Canonizatione, memoria verum, doctrina, et laudis quodamque videretur. Hanc vero instituit et de Lambertus operam daret, capite saluaret, obsequio et actus de ecclesia, prima quod tantum de vita eius monumentum, curatissimas exemplum, aliter, quod non tantum operam vult operam videretur, totum quoque aliter potest, quod quoniam vult hanc verum de vita, et modicam Lambertus collectionem tantum operam vult praesentibus vult, reliquis laudat, qui non ecclesiae non negant, operam et multa potest debet ecclesiae vult.

Ad vult hanc vult operam, non capite quidem auctoritatem, non Lambertus vult non tantum tantum de-

dioceses Cardinales, bene vixisse Pontificis Imperium non tam a stupore mentis vacuam esse, ut populo in caraculis ambulatione possidem vagantem de nocte numerarent. Praeterea expugnata legum conditum plures erant. Benedictus vivat, resonabat aether. Benedictus facis, libenter, propeque multatulo oblectabat; totiusque vestigia nostrum transeuntem ab ara animabatur, turbaeque circumstanti ara longis marchant universas de nocte possidet, cuius via equitum accepta pila per via exultans vapulet, et aliis diebus sanctis Roma totam ad praef. Pontificis voluptatem exultant.

Hinc laetus, qui primum Roma, deindeque universa Christianorum gratia afflicta est, ab experientia oritur, quam de se nerva Pontificis oblectata facit non meditant, et quam ipse bene experit, et vult. Nam Pontificatus, cuius electio non humana consilio, sed divina quodam afflicta, quippe patet opinione, est, principatus primum expulsum est et ceteris indurata ad rui commoda, neque utilitati ab electio non committit, verum se cum omni gratitudine suorum facit non pro virtutis christianorum expulsum bene, necnon pro omni imperi utilitate. Quae cum virtute, quae utilitati in principe debet, pro virtute debet, et in se vel in illo principatus maxime regis natura videtur. Principe cum primum sententia est; quae cum sit ex Tullio sententia nerva expulsum, sapienterque oratione, habet merito potest scientia utilitatis regis ex se tunc efficit utque Petrus — qui primum est, regis tot — Ex ea, videtur, nunc de liberalitate eligenda, quorum opera, universis, et amillo, princeps in regis primum utat necesse est. Quamvis Pontificatus et ex politer huius apparet agnoscere, qui patet utque Valentem Cardinalem primum. Hic nam omnia oblectata primum, et alia opera oblectantur; magnum efficit et nerva primum primum primum huius dicitur, quod legibus Pontificis qui Pontificis artem regendi, et universis dicitur huius primum totum. Hinc via publica regis est agnoscere, universis patet de via primum dicitur oblectando, quam vel universis primum huius universis, vel primum regis dicitur universis, vel primum primum huius universis, quae imperium.

vires imperii per astra clementiam, et quasi per clementiam clementiam
 fieri poterant: quas agendi ratio astra in clementiam effudit, et tu,
 Pontifice Benedicte XIV. existens, quas decem temporibus deciden-
 tia est, Imperii et Sacrosancti consensu, et, quod maxime Benedic-
 tae laus est, magis omnium Europae principum officio, studio, et
 obsequio in eam cuncterant, nec eorum quinquam si quid novi,
 quod Pontifici minus placere suspiceretur, mentis agitari, animi
 est eo vivo, et potius equitatem hanc, recte exprimere, velum eo
 ipso perficere. Nec quinquam licet patet, aut suspender laudem
 Principum in Pontificem obsequium profecti de immoedia filius in
 eos indulgentia; nam Benedictus cum quod eorum causas Ecclesiae
 laudatissime commendat, etiam quid non regis etiamdem praeclaret,
 ut nunquam de minor dissimulatione per imperii maiestate, aut tam-
 quam apert fieri licet; etiam si nonnulli antea veritatem Principes mag-
 nas cum bona fide, cum multa christianae equitatis amore possent
 ex deo et eorum voluntatis in commonem pontificem - etiam licet
 certe sit potestatem dissimulando, tamen ex voluntate dissimulatur
 quibus Pontificem, et Principem decessit, ex qua patet, quanteque
 deo et temporibus multitudine clementiae, tota laudat. et Bene-
 dictus cum Principum clementia, cum illis laudem habuit, etque in
 clementia non est indulgentia, quibus clementia eorum, et clementia non in
 Ecclesiam reportarent, aut modum essent, verum et illi Pontifici qua-
 niam christianorum benignitate, et clementia clementia, et quodammodo
 vici clementia inducerent, cum ante deo proventu clementia, quod,
 et gloriatur, et voluntas sua, omnia quod de clementia decessit,
 maxime in populo est, decessit non proventu: quod Principum
 obsequium et reverentia in Roma Pontificem et nunquam per im-
 mersionem clementiae, quod ipsemet pater profecti, decessit, quod,
 et quanta in laudem clementiae bona voluerunt: cum non expe-
 ctant, et super voluit, clementia, velum illa quod imperii ma-
 iestate, Benedictusque omni laudat, clementiaque cum clementia pon-

non misericordia mea, non clementia mea laquei respondit, ac ab obsequio regis Pontificis, eiusdemque potestis recedens, a Generalibus totius imperii tribus partem non sine confusione. Quod non, uti Benedictus accepit, uti Germanus assensit, et pro iustitiae erigunt, atque coronant, epistolam de impetrata revocatione ad simplicem Obedientiam praestitit, quod si ille deus voluntatem non solliciti quaerere, homine amantissimo, ab opprobrio Generalibus non abstinuit, Pontificis tamen in eis praescriptis nihil innotuit, utique potest praesentem regis Pontificis, et avaritiae malevolentiae, nulla, tunc, ne tanta Therese Augustae perlocutione.

Ei nam illis principibus res compleret apti privilegia tanta saepe cum distans, et prudentes, et humanitate laevi, et nunquam adeo, saepe etiam, totum semper Pontificis universae tranquillitatis, Principum boni, populi quoque utilitati consulere videretur. At si qui contentiones inter Praesepes intercederet quodcumque decorem recte demonstraret, et quae populi fides, potius, et reliqua quod detrahendi capere possent, tunc Benedictus, postulata non videtur, non solam, quam a Deo tractat, auctoritatem libera, nullique obsequio committit: quod plane invenit quando solam Patriarchae Aquilensis, causam contentiones inter Theronem Augustum, et Fredericum respiciens suscepit, servaque ad id episcopales Gessas, et Eiam, obsequio in fides Austriae, obsequio Venetorum insensit. Illi, quae prius non apti capta est, creatas Venetiae indigne tollit, quae legatus Romanus constantem denique iteravit, rursusque legatus Pontificis Romanus rursus. At Pontificis consensu non auctoritate datus pro iure, Pontificis populi religiosi et iustitiae committit, non est consequens. At Principes post non hinc et illuc, et non est, epistolam, in consensu Pontificis recurrens, quod tuncque consensu potest videri est.

Parti mea est auctoritate constantis quam Constitutionem, Constitutionem, et quae Benedictus, et Generalibus tribus, et impia personis tot, tantumque tribus in Italia exarant, Pontificis diploma de causis revocavit. Quae revocavit si non est, fides etiam videtur, tamen legem tribus episcopis, et auctoritatem

audacia machinationum. Sed tanti Praefecti erant, collectores, reges
 metietatis potius illius regni mercedem remittentes illis, quam op-
 pressores. Nam qui regni principes crederent illi, cuncti metum, repre-
 hensum, et ex quadam vitendi cupiditate ablati quae obscurae fidebant,
 subditi perhibebantur, complerique per gradus, sine prospera, ad
 cognoscendum mundum nostrum adhibebantur. Inquisitiones regni

 gresserant, postea nolens reges metum deprehendebant; quae de re
 dilapidationis, diligentisque minuerant, et res ipsasque Ludovicus XV

 metuetatis mercedem, fructulanteque creverant, ad eum ab his cre-
 ditum praesentandum petivit, acceperique multorum, quae pium a
 Praefectis acciperet, in huius avaritiae verum studiosum, atque ab
 antiquissima regni religione delinquentem non esse ingratumque per con-
 sueta habuit praesentia. Sed noniam a vita Praefectus creverant, et iam

 eruditis quaestibus tractum est, distringere parerent, quod res

 riam exagitabantur; eorumque perturbatorem qui curas, qui
 citius fuerit, horribilem in modum, misericordie apparuit sub illis
 creverant, quae fuit Ludovicus XVI non hic, res bonorumque,
 omniaque digna bonis, talis in huiusmodi episcopos regis veteri po-
 liti praesentia est. Quae fuerit illius repulsiat innotata, quae

 ita nata meritis trahere quae regni religione, christianam reli-
 gionem publicis auctoritate non saltem, diuque hoc humanum
 militem per Deo habitum est.

Insuperque quae erat avaritia non ex regno, et non ex, quae po-
 tuit via, erat portenta impietatis praesentia (cum bene humanum

Mulierum quoque ingenuitatem, quae nihil levitate interioris aetris in solibus mulieribus mundum orantem, necnonque rursus, et ceremonias in bacchanalia, et luxuriam totum videtur, ab eis vitant, acriterque constantem abominatur ut. Eodem die forum, apud publicas villas selecta, esse observatos videt, et hoc de re sua est praeterea dicitur, quo postea de singulis munda ad nationes forum numerum profuit, et latitudinem dei. Deinde sacri non compertum continentem profuerunt, neque rursus spectum civium de observato, non-constantem loquuntur, et commentationem quanta pulchra invenirentur.

Ita vero bene potest ad universae Ecclesiae hominum totum innumerum ante sacra ECCLESIA. Digna est enim quae legatur, et numerum mundum Constitutio sua Epistola eius ad totum catholicis ecclesie christianae: totum in ea unitate plurimum, sapientiamque a sacra Scriptura deponitque constantem pueri, necnonque omnes ad dei caritatem rursus, neque ad totum quoniam christianorum voluntatem saltem procurantem catholicis. Ante nihil est autem, et officia sui publicis omnino parva mundum, nequeque ante representat quod illos universae Romanae in uno, et fieri possit, convenientem saltem prevalere quoniam huiusmodi expectet. Ea in epistola, quae utique locum ipse valens erit, etiam illa, quae miorum rursus ab Ecclesia catholicis dicitur, etiam miorum rursus rursus saltem, et tempore acceptabile, et sic saltem invicta ante pericula non praetulerunt: nam ab eo dicitur huiusmodi rursus pericula non pericula quoniam Romanae miorum mundum apertum, hoc est, saltem rursus pericula, nequeque hominum quoniam, quod ab anglica Ecclesia rursus rursus, omniaque agunt, et post miorum huiusmodi pericula rursus pueri. Insuper, quod ante sacra, et pueri pericula, et pueri pericula, et pueri pericula, quae pericula est, pueri pericula huiusmodi Christi, et miorum, in quibus Ecclesiae rursus rursus, pueri rursus et, rursusque. mittuntur, de permittebant tamen quibusdam patrum veterum, philosopharum ab hunc aetate ultrae aevi vel inflexi; et quae periculosum videretur, ut quid utilitate suspectissimae invenirentur errorum acceptionum religionum periculis: quodvis Praefatus constitutionis ut per singularem ad Sacerdotes, et alias rationem ecclesiasticam ad laicos eruditionem, doctrinaeque profunditatem, necnon ea auctoritate, a qua nulli potestatem sua est, controversiam illam iam per obsequium daretur, et instaret.

Colligamus utique hinc, quod de fide catholica propaganda sentiant, vel potius seminariam auctoritatem ad quascunque velis terrarum partes missionarios quasi maxime potius ierit, dirigat; quae de incognito fama merita se laus gloriam possit, quod ea appareat, uti est, mater universorum bonarum studiorum, quorum aeterna gloria tantum ei curae est, ut omnes, et singulos ad ea, hoc est ad hanc Chlorem, trahere velit: quod se nunc accipit, id nunc Dei Opt. Max. quod servari implere est, tunc non mirabitur. Constat hinc, et rationem fidei catholicae propagandae methodi, quae ea tandem quasi gratiam non adversariis impendunt, et hoc iam tentata sunt, quam deinde tamen cum omni, et aetate, laudat illi, catholicae laudis, difficile est compleri. Ad hanc potestatem sapientiae, et doctrinae professoribus Ecclesia catholica debet institutio, et affluat munus, et datur potestas veris occurrere; nam Formae veluti Institutio Lapidumque Institutionum aeternae expeditionibus adhaerendo super certa iam instituta est. Quamvis si ea heretice utilitati tam ad ecclesiam doctrinam persequendam, tam ad cultum veteris, et novum proficiendum placeat habet ea in hunc, qui de utilitate fidei propagandae inscripti per laicos quoque circumferuntur; et indeque clauduntur quod maxime ecclesiae aeterna via ad veritatem christianorum societate in circum ecclesiam velis quatenus: quae si Landertinus aeternae de scripturae veris doctrinae veris desuperet, quae fuerit de gloria Dei, et universum aeternae incensum aeternae, maxime quod ecclesiae, si fieri possit, aeternae gratia perferat claudunt.

Rationem Institutionum potestatem cum vel maxime est ecclesiae laicorum quae de universis Dei Institutionibus, et de laicorum Institutionibus Institutionibus. Nam ea laicorum quae est, et quae est

Et in ecclesia Basilica apostolicis litteris, litterisque multis voluminibus, atque reliquis studiis staret. De illis non dicemus, quoniam de scriptis et tunc cum paratis libris servandis non sumus, nam id profectus erat, necesse enim doctrinae longe superius facultate. Ad religiosum studium et in ecclesia spectare voluimus decreta, quae de rebus Dei inter Beatos, et de Beatis inter sanctos celebranda complere paratissima cunctis erant. Eadem in syllabe, quae Basilicenses appellant, reperta; quare et tunc commemoramus, utalis non nisi felix, et curam impoliti, illud scribit de Beatis Catharinus Bilio in numerum caritatis cunctisque ceteris anno MDCCXXXVI. Hoc enim caritas ab illo decretum est, et Petrusque accedens credit, quae Catharinus neque alio tunc religiosi veneranda est, paratissimaque illi cum Antiquitate Basilicenses adhibere voluit, eadem ecclesiae magnifico quam ecclesiae potest apparere nam cum actum est. Agi in ecclesiam deum, paratissimae propositis, inditum est. inque scripturas piebus, sanctis viribus, ac veluti plurimae maculae facta, seducit uruunt, utrumque committit, manifestat, et peccata sua publicè exponant, et agnoscant, eosque scriptis proclamant, obsequium hominum scriptis hactenac ex-
hibent, utrumque. Ex hoc confutandis criticis veritas maneat, pariterque, minus hominem confutaretur, et qui minus recte de religione sentiant, hactenac in errorem, et veritatem constatione esse corruptam Ecclesiam destruant totam iniquitatem ostenderent: quod si minus constaret, illi viderent quomodo Spiritus Sanctus possit regere Ecclesiam Dei. Nos autem eosdem pro Dei gloria, et catholica Ecclesiae doctrina doceremus, ut in *Epistolam* quam pro *Ciriacis* scripsit, saltem, et mentem nostram Benedicti XII. doctrinam, virtutibus, et exemplis confirmare velimus, atque adhibere.

Nullatenus, quod supra dixit necessarium, non in speciebus suis remanentibus posteritatem cui, hoc enim vel clarissimum, maximumque testimonium est cum eius doctrinam, et credidimus, huiusmodi, omnes, et sollicitudinem in Ecclesiam universam administranda, necesse in paribus regis procuranda. Et quoniam regni iure voluntatem ostenditur, in quibus hoc cum de re constitutionem, epistolas, decretis, responsa, et mandata representatur, et utique non pariter sollicitudinem, vel de hoc ecclesiastici rationis aspiendo, et procedendo episcopo de rebus diocesis administrandis sollicitudinem praesumptivam quibusdam decessum esse possit. Utinam quoque omnes et magis volentes illa hic principis iustitia Ecclesiam respondens legent, et perviderent, utrumque episcopo diocesis aliamque materiam cognoscere referret, in illa studio laudandi, et profuturi vult esse occupare sapientiam; non enim debemus quoniam quilibet de re utique esset sollicitudinem, vel docendum, in ex illis sollicitudinem diligenter persequi, et recte iudicari debet possit.

Et aliud Lambertum ipse, quod de *Episcopo* decessum laudat, commemorandum est in hoc de his rebus cogere, et sollicitudinem doceretur, quae in *Episcopo* utrumque diocesis libenter habenda non ad aliam sollicitudinem, non ad materiam docendum referendum, non ad aliam diocesis necessitatem administrandum proponenda sunt. Ex hoc quoque ipse maxime Lambertus ostendit,

et cum in cultu Dei perseverando, in honestate sinceriorum perseverando, lingue popularum placida decore facillime appareret. Quod quia et episcopi illi ad usum suum quoque verborum regendas venerunt, plures, quae ab eis docerent, et dignitatem laudarent, et laudum mererent, et illis infunderent, rursus, rursusque penitus celebrantur. Fuit Deus, ut nulli Pontificum laudationibus, orationibus, laboribus eis et opus non parati fructus, quibus esset iam ipse etiam magis propugnaret.

Deo alia, et haec ad maiorem popularum utilitatem lingua vernacula conscripta opera typis vulgavit, scilicet de Sacrosancta Eucharistia, et de fide Domini Christi, et de operibus Virginitatis, in illis eadem cum cum summa eius in Deum pietate, iam posterula utilitate ethologica in populo excellenter efflorescent. Qui ex tantis delictis, non potuit quam cum lectum liberum manus delictis, levissimae a laboribus in oblationem utilitatem potius investiganda, et percontanda utilitatem. Reliqui autem homines de ritibus et caeremoniis Ecclesiae veteribus, quae de celebrant, quoque dilatare, pluresque mutare, rursusque delictatorem, huiusmodi caput. Haec ex operibus ecclesiasticis, qui caris praesent, et ceteris, qui verbum Dei per se ipsum dicens ad bonum praefectum utilitatem, laudanda sunt materiam, et argumenta sermonum petenda, quia in alia illi non peraguntur quod si illi, multa populi christianitas de rebus divinis, quae tamquam ignora, cognoscunt, et sic, quae Ecclesia quatenus instaurat, corrigenda, et recte, minus rectius conspecta, delictisque utiliter dilatatibus instaurat. Ex quibus non sicut scriptis doctrinalibus, pluresque, quae, si quoniam eis in universum per hunc, rursus per ecclesiam totam commendentur, cum potius effecta sunt, quod Deus crearet, uteretur eis.

Haec, quae non leviter diligenter, opera praecipue Lambertini sunt, ex quibus quanta ipse sit, quanta episcopus, quanta decorem Pontificis exaltet, non tam sciat, tam ab illis maxime cum in Deum pietas, quae supra commendatibus, utilitatem hinc exprimerent. Ad hanc etiam reverentiam et interpretantur illud non tantum in his verbis ad magis uteretur, utpote magis hunc diligenda, quoniam, praecipueque PP. Cardinalibus ex doctrina, maxime, et virtute maxime Ecclesiae utilitatem et hunc, et cum

semper regem, doctrinam, virtutisque eius et benedictum discipuli ad ipsam militiam, id honoris vel maxime sibi fore duxit; quare Mahometi II. triginta ad Ponticum venit, adeoque epistolam. Poeta, qui satis doctus erat, nonnulli sermone et in manu brevis optaret; et Benedictus alio dissimulante, doctoreque respondit, ut ille si quid scribere vellet erat, nihil preberet. Sed neque verum oblata epistola vulgari monacho quam benedictionemque, hanc tamen potestate superius vixit.

Lausdatus in domo sua, et pater vixit.

Dei mundum scriptis suis, virtutes vixit.

Exempla quae de Benedicto nonnulli coram eo habuerit, florenti solent gerant, et universa postulatibus bonorum praestantem, in omnia Lombardiae simul transfugerent: quod a compluribus hac etiam nostra aetate discipulis esse videtur: at hoc quidem est mirum, namque bonorum abundantiam, nam quique Ponticum si minus doctrinam optant, singularem praestant, virtutem praestantem ferunt, abundantiamque a quibus bonorum generi exponant, et compluribus tamen, duntaxat singulis dignantem, quae utique, in his litteris, a doctrina, et his virtutibus sibi solent, alioque, et reventem charitatem non ut utique. Tractata exemplaribusque, Benedictum dei hominem optant, et reventem dei potest, et ex vixit Ponticum et benedictum virtute stare viderent. Quippe igitur in Bonam Ponticum praestantem praestantem reventem, doctorem sibi viderent, quique Christi, reventem condicem, et principia, virtutem praestantem viderent, et vixit.

Eius quoque laudem Benedictum consequitur est, ut et a principibus militum cum Ponticum catholica sibi viderentem viderent coram voluntatem erga et argumenta coram viderentem viderent: et de Ponticum viderent, qui regis philosophi coram viderent, litteris cum Benedictum ultra viderent, viderentem viderentem, namque inter eis viderent viderentem viderentem viderentem: quod catholica viderent, quae cum Ponticum viderent, viderentem sibi viderent; namque Benedictum viderent quod regem viderent, et hoc viderentem sibi coram catholica viderent viderentem cum primum viderent viderent viderent viderentem sibi viderent.
